FREELANCE

Full-Stack Web Developer, New York City

FEB 2014 -
PRESENT

- Work as a freelance web developer, creating fully designed websites and web apps for various clients.
- Create side projects to expand skill set, learn new languages, and strengthen current knowledge.
- Notable Projects - Built, designed and launched:
 - Follow the Tweeter** - Evaluate if a twitter user is worth following using analytics and a custom score. Created with Ruby on Rails, JavaScript, Chart.js and the Twitter API. See it in action at followthetweeter.com.
 - Coffee Talk** - Recreate classic coffeehouse culture by being matched with like-minded people. Created with Ruby on Rails and Foursquare API. See it in action at gocoffeetalk.com.
 - Metro Math** - Easily determine cost effectiveness of buying an unlimited or regular MetroCard for the NYC Subway. Created utilizing a Rails API and a pure HTML/JavaScript front-end. See it in action at metromath.info.

JEWISH FEDERATIONS OF NORTH AMERICA

Senior Program Manager, New York City

APR 2011 -
FEB 2014

- Assembled and administered a website for volunteer leadership; developed and marketed techniques to better engage viewers.
- Planned, organized and supervised a team of seven to lead an annual trip to Israel, engaging hundreds of young Jewish adults each year and raising over \$200,000.
- Conceptualized and developed a pilot Federation campaign-marketing program.
- Acted as JFNA National Young Leadership's marketing liaison.
- Managed team working with speakers and organizations to create "TribeFest" breakout sessions.
- Managed National Young Leadership's social media presence (increased 5-fold in 2 years).

BIKKURIM

Administrative Coordinator, New York City

JUL 2009 -
APR 2011

- Established an internal website to securely share information with incubated groups.
- Developed and deployed the organization's first social media marketing tools, increasing applications to the incubator program by 200%.
- Designed and wrote copy of online and print marketing materials distributed at national events.
- Initiated upgrade of and managed Information Technology for Bikkurim and incubated groups.
- Trained Bikkurim staff and group members in new technology and provided IT support.
