experience

TodayTix
Senior Software Engineer, NYC | Jun 2017 - Present

- Lead web team's development of new features, including web lottery, Harry Potter exclusive, and analytics tracking using ReactJS, Redux, Lodash, and HapiJS for SSR.
- Spearhead redesign and development of company's CMS while working closely with Product and Design, which is resulting in improved user productivity. Built using ReactJS, Redux, Ramda, and PostCSS.
- Collaborate with Product and Consultants to improve website SEO, increasing sessions by 45% and purchases by 20%.
- Contribute to the reorganization of the Product and Tech teams to work in a more agile manner, leading to faster development with fewer defects.

RESERVE
Software Engineer, NYC | Mar 2016 - Jun 2017

Reserve Table Management
- Developed company's flagship restaurant table management service using ReactJS, Redux, ImmutableJS, Ramda, Webpack v2, and PostCSS.
- Collaborated with Design and Product team to launch the app in Q1 2017, growing to over 200 paid users.

Reserve.com
- Led development of redesigned **Reserve.com** using AngularJS, Gulp, Sass.

TIGERSPIKE
Software Engineer, NYC | Oct 2014 - Mar 2016

- Worked within waterfall and agile methodologies on fully responsive web apps with a small team of designers, developers, and product managers.
- Led development with front-end frameworks, driving use of AngularJS and Node.js within projects.
- Worked closely with clients, helping them understand technical aspects of projects.

FREELANCE
Software Engineer, NYC | May 2014 - Present

- Create fully designed websites and web apps for various clients.
- Notable projects:
  Lawrence Leibowitz, DDS (drleibowitz.com) - Responsive website for a dental practice in Virginia Beach. Built with ReactJS/Redux and utilizing a Contentful CMS back-end.
  Wolf Lacrossee - Responsive eCommerce website with admin back-end for Wolf Lacrosse's national summer camps. [RoR, jQuery, Sass, Stripe]
